PROFILE

Final-year Information Science student with experience in building scalable backend systems and secure applications. Proficient in Python programming, passionate about solving real-world engineering problems and contributing to reliable, high-impact technologies.

EDUCATION

- **B. Tech in Information Science Engineering** | NITTE University, NMAMIT College
  Currently in 3rd Year (2022 – 2026) | CGPA: 8.52

- **PU:** Scored 97% in PCMB from Vagdevi College, Thirthahalli.

- **SSLC:** Scored 95.63% from Vagdevi High School, Thirthahalli.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, React.js, PHP, MySQL, MongoDB, C, Python (Proficient)

PROJECTS

Nitte-Foods
Built a full-stack e-commerce website for food delivery using the MERN stack, designing and implementing a scalable backend to handle order management and real-time data updates. Technologies: MongoDB, Express.js, React.js, Node.js.

Second-hand Vehicles Showcase Website
Developed a platform for showcasing second-hand vehicles with dynamic content and user interactions, incorporating a robust backend to manage vehicle listings and user data. Technologies: PHP, MySQL, HTML, CSS, JavaScript.

Hospital Management System
Designed a comprehensive backend to streamline hospital operations such as patient and staff management, ensuring secure data storage and efficient query handling. Technologies: PHP, MySQL.

EXPERIENCE

Freelance Experience

- Currently developing a website for a hotel in Subrahmanya in collaboration with A1 Logics (certificate pending).

- Also working on two other websites for other businesses.

STARTUP EXPERIENCE

TTH E-CART: Founded and operated TTH E-CART, a full-fledged e-commerce platform serving Thirthahalli region. Managed end-to-end development, logistics, and customer support, generating ₹3 lakhs in revenue within 2 years.
